

## Facebook Chemical Reactions

You are going to create a facebook page of a type of reaction in chemistry. The facebook page must be hand drawn and colored. This is worth **50** points.

You need to include:

1. name of reaction (2pts)
2. cover photo (5pts)
3. profile photo (5pts)
4. 5 status updates (25 pts)
5. an explanation of the reaction (5pts)
6. meme (5pts)

Reaction choices:

1. synthesis
2. decomposition
3. single replacement
4. double replacement

Point will be deducted if there isn't the following:

1. name, date, and period on the back (-3pts)
2. color (-5)
3. missing any of the items above the point value next to it will be taken away

If you make me laugh I will give you 5 points extra credit.

*Have fun! Do a great job because you are awesome!!*
